

What's the battery charge on your spine right now?

Where would you place it for **yourself?**

Where would you place it for your **friends/family?**

Most people don't get it checked until they are 30-50 years old.

Imagine waiting to see what the status of your teeth was for that long.

% 10 20 30 40 50 60 70 80 90 100

Your **spine** is the central piece of your entire body's infrastructure.

It encloses and protects your brain and spinal cord.

Spinal care is CUMULATIVE. It adds up over time and repetition 😊

Misalignments affect your **brain** activation, **mood**, **neurological tissue**, immunity, and overall body health
